REDINE KYLE V. ELEJORDE

Computer Engineering Student

San Jose, Rodriguez, Rizal | kriyuchi13@gmail.com | 09929652855

SUMMARY

Detail-oriented Computer Engineering student specializing in software architecture, database management, and end-to-end system development. Proven ability to architect user-centric desktop and web applications, manage Git workflows, and build functional IoT systems. Actively seeking a Software Engineer position upon graduation in October 2027 to contribute clean, scalable code and collaborate on complex engineering projects.

SKILLS

- **Programming Languages**: Python, Java, JavaScript, C, C++, C#
- **Web & Mobile Development:** HTML5, CSS3, FastAPI, Kotlin, Android Studio
- **Databases:** MySQL, MongoDB, SQLite
- **Developer Tools & Version Control:** Git, GitHub, GitHub Pages, JetBrains IDEs, VS Code,

PROJECTS

- **FLOODGUARD**
  Built a real-time flood monitoring application using Python, FastAPI, Kotlin, and Android Studio. Integrated APIs to process incoming data and deliver live system updates to mobile clients.
- **Solar-Powered Subsurface Irrigation System**
  Designed and programmed an automated irrigation controller utilizing ESP32 and Arduino microcontrollers.
  Integrated soil sensor modules and power management logic to optimize water delivery and efficiency.

EDUCATION

Bachelor of Science in Computer Engineering

ICCT Colleges Foundation Inc. | *Sept 2023 – Present*
